Watching TV Series
solving rubik's cube

EXPERIENCE

Xorlabs/ Greater Noida/ January 2020 - Present

• Developed and handled every months NPI updates of eleven models for Avaya in CML.
• Optimized code effectiveness by creating global terms and connect all models with the help of Footprints.
• Deployed all of the NPI updates at the end of every week and fixed all the ALMs within the time period.

Projects

Excel-Clone
https://ashwani-kumar-tiwari.github.io/Excel_Clone/
- A Web Application that stores & manages data in multiple excel sheets, which can be styled and manipulated by using different formula sets and styling tools in applications.
- It's a lightweight application, can be used for temporary storing of data, and if required can be loaded into local storage.
- Used tools & technology Node.js, Browser API, HTML and CSS.

Netflix-Clone
https://ashwani-kumar-tiwari.github.io/Netflix_Clone/
- Designed a Netflix clone that displays movies and TV shows based on their genre.
- User can play the trailer of the movies and TV shows by clicking on their posters.
- Used tools & technology React.js, React-Youtube API, Bootstrap CSS, firebase.

Instagram-Clone
https://ashwani-kumar-tiwari.github.io/Instagram_Clone
- Created an Instagram clone that displays user postings and also allows users to like and comment on other's posts.
- Used firebase that store the user credentials at the time of signup and matched their credentials at the time of login.
- Used tools & technology React.js, Browser API, Bootstrap CSS, firebase.

ACHIEVEMENTS
- Gold badge in Python Programming on Hackerrank.
- 4-Star in C, Problem Solving and in SQL on Hackerrank 2015
